THE WOMEN LEAD.

Throughout the coke region the women generally are leading and most bitter in their attacks on the deputies. Heretofore they have been silent, but when evictors attacked their homes the foreign women especially were driven wild. During several equabbles to-day a couple of deputies were struck with stones and one was cut on the arm while pushing his way through a crowd. But few evictions were made, as the Sheriffs evidently fear opposition, and are gathering larger forces of deputies.

There is a report in circulation this evening that Pinkerton detectives will be imported into the region and stationed at the works where efforts are being made to resoune. Master Workman Wise is at Whitney to-night to give passages to a number of imported Italians who are desirous of leaving that point.

A SHERIFF'S EXPERIENCE.

A SHERIFF'S EXPERIENCE.

A special from Uniontown says: The boys of Company "C" spent a quiet night at the armory, and the forenoon night at the armory, and the forenoon was passed without incident, but they were startled at 3:30 o'clack this afternoon by an order from Sheriff McCormick, to move at once to Leith. This was immediately countermanded to the great relief of the soldiers. The trouble at Leith arose over the determination of Andy Dunsko not to be evicted peacably and Andy was backed up by all the Hungarian women in the neighborhood, The Sheriff rushed to the company offices, armed bimself and sent a deputy to hurry up the troops, but the women up the troops, but the wome

Deputy Orawford went to Leisenring No. 2 to-day to serve the injunction papers on 32 of the strikers engaged in the riot there Saturday morning. Close in his wake came Constable Chick to arrest the rioters. Twenty six of the latter were arrested and taken on board the train by the constable, when their wives and the wives of other strikers to the number of 40 or 50 poured into the two coaches and took possession. The women refused to pay their fare, and they refused to get off, and the train men, after making a number of ineffectual efforts to unload them, finally ran the train on a side track, cut off the coaches, prisoners and all, and came on the engine to Vance's Mills Junction and reported the situation to railroad head quarters.

The coke company has sent out information against 33 of the leaders and also instituted criminal charges against them. The injunction papers and warrants have been placed in the hands of the sheriff and constables, but they claim to be powerless to servethem without the assistance of the troops. The injunctions instituted against 40 strikers by Schoonmaker & Co., came up this morning, but were postponed until the June term of court at the request of the defendants who were not ready. The name conrse will be pursued in the Rainey injunction cases, which coment in the United States court in Pittsburgh to-day.

There were no evictions at Morewood to-day, owing to a legal hitch, the notices having been dated Sunday. It is probable the strikers will leave their houses quietly. The company reports 104 men at work at Morewood to-day, Painter's plant is running full, and at the Black Hill mines another block of overs was started.
